Got your attention? Great! There's more →

Congrats on your purchase with Echo Technologies™! We are delighted to play a role in your health journey. Here are a few things you should know about your new Hydrogen Water Pitcher™.

- Before use, make sure to remove the electrode coverings(plastic cones) inside the pitcher. They're only for storage and shipping purposes. You should never use the Hydrogen Water Pitcher™ with these coverings inside.
- Always use filtered, purified, or distilled water inside your Hydrogen Water Pitcher™.
- When you are using the Hydrogen Water Pitcher™, you will see bubbles in the water. These bubbles are the hydrogen gas that is being dissolved into the water. If you start to see fewer bubbles than when you first purchased the Hydrogen Water Pitcher™, it's time for a cleaning. (Refer to the user manual for specific cleaning instructions.)

Please refer to the Hydrogen Water Pitcher™ Instruction Manual included, for more information on how to use it.

If you have any questions regarding your Hydrogen Water Pitcher™, please don't hesitate to contact our Customer Support Team at [support@echoh2o.com](mailto:support@echoh2o.com) or by phone at (855)737-1114.
