## ECHO GO™

Congrats on your purchase with Synergy Science™! We are delighted to play a role in your health journey. Here are a few things to know about your new Echo Go™:

### ADVISORIES

- Never operate the Echo Go™ without water in the bottle.
- Only operate with filtered water.
- Always keep the electrode plate wet by keeping a small amount of water in the bottle.
- If you need to store your Echo Go™, put a small amount of water in the bottle and reattach the plug to the electrode plate.
